that patriotic republicans an
allike would deplore such a count.

HOW THEY LOST THE FIGHT.

While one gang of defeated republicans
is plotting to overthrow democratic
majorities in neighboring counties,
other sore and disappointed factions are
engaged in accusing one another of
treachery to the republican cause here
in Lewis and Clark county.The quarrel of these factions shows that the re-
publican leaders themselves know that
they were beaten by lack of brains, gen-
eralship and votes. Mr. Russell B. Har-
rison's Journal, which loudly shrieks for
upsetting of the ballot boxes in Deer
Lodge county, in its anger at somebody
or something for losing Lewis and
Clark county, says:An investigation should be made by the
responsible leaders of the republican party
into the conduct of the campaign of Lewis
and Clark county. No one can read the
story of the returns without coming to the
conclusion that the republican candidates
were treated at least with indifference, and
possibly with contempt.But to day the republicans have no votes to
lose and treachery or indifference must
be treated with a sharp stick. In the pres-
ent situation it is necessary to know who
are our friends and upon whom we can
depend in crises such as we have just
passed through.The party had been properly managed we
should have won. It was not the money of
the millionaires that swamped us. Men
who join a political organization, who par-
take of the fruits of party victories, who
desire place in party management and who
therefore fail to perform their full duty,
or worse still, apply the knife of party
division, are traitors to the party and
they are sworn to protect and defend, need
to be punished severely.Here we have the whole situation in a
nutshell. The republican managers
expected to carry this county by 500
votes. It went for Toole by nearly 300,
and the 500 difference is the margin by
which the republicans lost the election.They expected to get four more mem-
bers of the legislature in this county
than they succeeded in electing. Had
they elected a solid delegation it would
have made a difference of eight votes
in their favor, or just about the margin
by which they have lost the legislature
on joint ballot.But disappointed aspirants for sena-
torial honors will not accept a verdict
if they can set it aside. They have
picked out for assault the votes of what
Mr. Harrison is pleased to call "250 Vir-
gilian" citizens, meaning new Italian
citizens, and propose to invoke legal
technicalities to see if, by getting these
votes thrown out, they cannot regain
what they have lost by blundering and
stupidity in this county. They attack the
Deer Lodge vote because the rejection of
that would give the standing candidate
a chance to go to the senate.The news that the railroads of the St.
Paul, Minneapolis & Manitoba system
will probably be absorbed by a new cor-
poration known as the Great Northern
company, is of interest and signifi-
cance. It means economy of adminis-
tration, more money for building ex-
tensions and probably the early comple-
tion of the main line to the coast. It is
not definitely known that the Montana
Central is included in the absorption,
but that is the probability.The democratic majority on joint bal-
lot in the legislature stands firm as a
rock. We have a good working major-
ity in the house, but it is uncertain
whether the senate contains a demo-
cratic majority of two, or is tied.In the latter event, the republican lieuten-
ant governor will have the deciding
vote on party questions. But we get
two United States senators just the same.The Journal was unusually frank yester-
day. Its election news was headed,
"The Rascals at Work." We exposed
the plot of the republican scoundrels in
this exposure, but did not think
the Journal would give them away.The INDEPENDENT is the only news-
paper in Helena that has given honest
and straight election returns.GOVERNOR-ELECT TOOLE's majority
will be about seven hundred. And he
won't be counted out, either.

CROSS-CUTS.

John L. Sullivan having "sorely op-
pressed" the republicans, he intends to run
for congress."Albert, you have not been good to-day.
You will have to suffer, so that the re-
publican shall take warning and be good."
"Would it be better, sir, to let the others
go hungry and then I can take an example
from them?"President Barnard, of Columbia college,
provided in his will for founding a fellow-
ship and a library fund for that institution,
and also set apart a sum for a gold medal
to be awarded every five years for the
most novel and useful scientific discovery.The Cincinnati Enquirer says that
human nature reveals itself in the way it
grazes a door-bell. Perhaps it does down
that way, but up here no one has yet
learned to detect the difference between
the ring of a bell collector and the man who
wants to borrow your lawn-mower.—Deer
Lodge Free Press.That was a shrewd thing old Dr. Lyman
Bocher used to say: how he kept his
grip on the parish: "When a better rose I
did not run about the house trying to
pull broken glass together. I preached so
well the troubles were lost sight of."
It is certain that that man's power in the
pulpit is a great and constant cure-all.Gypsies came into Scotland from Ireland
about the year 1500. So consummately
shrewd were they in carrying out their
assumption of inferiority under the leader-
ship of Antonius Gwyno, Earl of Little
Egypt, and of being under command of
the pope to wander seven years without
sleeping in a bed, that they actually ac-
quired the confidence, if not the favor,
of James IV. It was the same old
trick they had played throughout all En-
rope.The religious conduct of Switzerland,
remarks the Rev. J. H. W. Schenck,
D. D., presents many interesting facts.
According to the statistics of last Decem-
ber the country contained 1,750,000 Pro-
testants and 2,000,000 Catholics. There
is perfect liberty of creed and of con-
science. The person who exercises
patronage authority acts as guardian
canonize the religious education of the
children till the age of 16. As is often the
case the church in the minority is es-
pecially vigorous in the reformed cantons,
the Catholics are on the increase, while
the reformed are gathering in Catholic cantons.
The Catholic church is a unit and is domi-
nated by ultraconservatism; the Protestants
are divided, there are controversies raging
between the Evangelical and Liberal parties.
In point of fact the Catholics are the
reformed.Machone and His Cook.
Agreeing to record newspaper articles on
Machone's war record, here is a
true story told by a member of the South-
eastern society: "My brother," said the
speaker, "was a surgeon in the Confederate
army, and during the siege of Petersburg
he was the only man who was not killed.
One morning as he passed Machone's tent
he saw the exhausted little general sitting
sweatily up and down in front of the
tent, while inside there at the table a
dinner of four was being served. The
general was eating heartily, and he was
devoing the whole lot."

THE TEETH.

American Analyst: Teeth are just as
easily starved to death as the stomach.In one way it is a blessing to have been born
of poor parents. What food the poor give
their children is of the variety that goes to
make strong bones and teeth. It is the
outside of all the grains, of all cereal foods
that contains the carbonate and phosphate
of lime and traces of other earthy salts
which nourish the bony tissues and build the
frame up. If we do not furnish to the
teeth of the young that pabulum they
require, they cannot possibly be built
up. It is the outside of corn, oats, wheat,
barley and the like, or the bran, so-called,
that we eat away and feed to the swine,
that the teeth actually require for their
proper nourishment. The wisdom of man
has proved his folly, shown in every suc-
ceeding generation of teeth, which become
more fragile and weak. These fluting
mills are working destruction upon the
teeth of every man, woman and child who
partakes of their finely bolted flour. They
sift out the carbonates and the phosphates
of lime in order that they may provide that
fine white flour which is provided a white
suppleness to teeth. Oatmeal is one of the
very best foods for supplying the teeth
with nourishment. It is the best of the
dentist and enamel strong, distinct and
able to resist all forms of decay. It
has children never allow any white
bread upon your table, bread of wheat
whole wheat ground, not bolted, so that
the bran which contains the minute quan-
tities of lime is present, is best. To make
a good, wholesome bread, use one bowl of
white or whole wheat meal and one bowl of
oatmeal. No flour and no bran. Bake
for, for long and long. This
is made of rye meal and corn meal. Bake
beans, too, have a considerable supply of
these lime salts and should be in your
table, hot or cold, three times a week. In
brushing the teeth always brush up and
down from the gums instead of across.
Brush away from the gum and on the
grinding surface of the teeth.

THE MARKETS.

New York, Oct. 4.—The market for
Copper-Lake October 10.00.
London, Oct. 4.—The market for
Copper-Lake October 10.00.Against the money question, with the weakness
in trust, were the great influences which dictated
the course of the market. Before the opening
of business it was known that \$300,000 more
gold had been ordered for export by tomorrow's
evening. The strength of the market created
a somewhat feeling among the traders, and with
this came a violent attack upon trusts.
They paid the most attention to cotton oil, and
the extreme decline it reached five percent.
But later came along with a drop of eight
percent. Considerable pressure was brought to
bear upon many stocks in the regular list, and
in the afternoon the market closed at 94.LIVE STOCK.
